

Price List – effective March 24, 2015

Please refer to our most current sales brochure for details on each model including size specifications, usage application, accessories and for ordering specifications. Page numbers have been provided under each heading for your convenience. It is not practicable to list pricing for all of our products due to constant changes in manufacturing and raw material costs. Pricing is listed for our most popular models that we stock at our facilities. If you desire pricing on items not listed below, please call our sales department for a prompt quotation. Need a copy of our brochure? Call us today—we'd love to send you one!

Electromagnetic Chucks—pages 5 thru 7

HL-612 HL 612 Electromagnetic Low Profile chuck. Overall dimensions 6" x 12" long x 3" high. Top plate constructed with .125" wide magnetic poles and .03125" wide non-magnetic separators extending the full length of the chuck. Complete with adjustable backstop, end stop, 6' SO type power cord connected to a twist-lock type connector and hold-down clamps. 115/230 VDC @ 53 watts, approx. 55 lbs. \$1,750.00 each

- We repair all makes of electromagnetic chucks and we restore them to "like new" condition with a 2 year warranty.
- Do you have an older chuck that doesn't suit your needs anymore? We can rebuild it—call today for a quote.
- Does your chuck appear to be working properly but your parts are slipping? It's possible you need your top plate replaced. We can help you with that. Contact us today to discuss top plate replacements.

Accessories for Electromagnetic Chucks—page 8

MV-6A Vise Model MV-6A Easy to use, Magna-Vise, Holds rigid non-magnetic materials such as brass, copper, plastic, aluminum and others. Magna-Vises come in their own high quality wooden case, wrapped in protective cloth to protect from nicks and scratches. Dimensions are 6.375" (L) x 1.5625" (W) x .100" (thickness). \$480.00 pair

MV-6 Vise Model MV-6 Easy to use, Magna-Vise, Holds rigid non-magnetic materials such as brass, copper, plastic, aluminum and others. Magna-Vises come in their own high quality wooden case, wrapped in protective cloth to protect from nicks and scratches. Dimensions are 6.375" (L) x 1.5625" (W) x .155" (thickness). \$470.00 pair

MV-10 Vise Model MV-10 Easy to use, Magna-Vise, Holds rigid non-magnetic materials such as brass, copper, plastic, aluminum and others. Magna-Vises come in their own high quality wooden case, wrapped in protective cloth to protect from nicks and scratches. Dimensions are 10" (L) x 1.5625" (W) x .155" (thickness). \$755.00 pair

Magnetic Lifts-pages 20 and 21

LB-5G LB-5G Power Grip battery operated lift magnet. Rated lifting capacity 5,000 LBS, \$3,100.00 each
 12 Volt DC @ 104 watts, 7 1/2" x 20 1/8" x 19 3/4" height to clevis. Weight 250 LBS.
 Operates on self-contained automotive type storage batteries resulting in maximum convenience, versatility and dependability. No need for external power cords. Standard unit complete with built-in chargers. Makes loading and unloading of machines simple and fast. Supplied with charger cable.
 Less Battery.

Our most popular battery operated lift magnets:

Model Number	Rated Lifting Capacity	Ideal Purpose
LB-2G	2500 LB	lifting mild steel with smooth surface
LB-5G	5000 LB	lifting mild steel with smooth surface
LB-7G	7500 LB	lifting mild steel with smooth surface
LB-10G	10,000 LB	lifting mild steel with smooth surface
LB-15G	15,000 LB	lifting mild steel with smooth surface
BLM-25	2,500 LB	lifting flat plate
BLM-50	5,000 LB	lifting flat plate
BMU-50	5,000 LB	lifting rounds

- We also offer annual inspection of lift magnets including a lift test. Keep your lift magnets operating like new with annual inspections and load testing at our facilities by our trained technicians for only \$65/magnet. Call today to arrange for your magnet to be tested and inspected.
- Do you have an older lift magnet not in use? We repair lift magnets. Call today for a quote!
- We have successfully retro-fitted many of our older lift models to current safety conditions. Call us today.
- We can custom build special lift magnets for your specific needs.
- We also carry several models of electric lift magnets. Please see our brochure or call us.

- Earlier manufactured lift magnet models listed above may require different replacement parts even though part number is the same due to the many updates to each model. If your lift magnet model listed above is manufactured prior to 2010, please call our sales department for assistance with replacement parts.
- If you do not know when your lift magnet was manufactured, we can help you with that! Call our sales department with the serial number and we will identify the manufacture date based on our serial number data base which dates back to the 1950's.
